Profile

Senior Product Designer with 7+ years building high-scale consumer products across travel, OTT, and marketplaces. Specialised in experimentation-driven UX, AI-first product execution, and crafting end-to-end journeys.

Professional Experience

STAGE

Senior Product Designer | March 2025 – Present

Led growth design across **4 verticals & 5 PMs as sole designer**. Began with acquisition and activation, then grew into owning reactivation and monetisation end-to-end, from product strategy through design, development, launch, and impact analysis.

- Launched **TVOD, a new monetisation model** and revenue stream, owning it end-to-end from strategy to launch. Drove **23% conversion** and added **~₹23L in new revenue**.
- Improved **trial conversions** by redesigning the paywall through structured experimentation, increasing the trial rate from **8% to 28% (+250%)**, driving ~5L in projected annual trials, 2X the web trial rate, and multi-crore revenue growth.
- Scaled **trial-to-consumption by 44%** through gamified onboarding and personalised content journeys. Boosted AHA by 16% & D3 retention by +40%
- Launched the **AI-driven Character Chatbot (0→1)** and Stage Coins loyalty loop, lifting **D7 watch retention by 55%** and D1 retention by 20%
- Ran **full-funnel reactivation** for lapsed users, piloting **AI-driven experiments**; AI voice calls and AutoResearch-style personalised notification/WhatsApp journeys based on last in-app activity

Adani Digital Labs (Trainman)

Senior UX Designer - Jul 2021 – Jul 2023 | Product Design Lead - Aug 2023 – Feb 2025

Progressed from Senior UX Designer to Product Design Lead, **building and mentoring the design team** while establishing scalable design standards, design review systems, and cross-functional collaboration processes.

- Rebuilt payment failure & recovery flows through heatmap analysis and journey mapping, resulting in a booking failure rate reducing from **~16%→~4% (~75% reduction)** and customer support volume dropping ~30%
- Redesigned the end-to-end booking flow (0→1) through user research, competitor analysis, and persona development, contributing to **4x growth** in daily booking volume.
- Drove ancillary revenue growth by leading Trip Assurance and Free Cancellation initiatives, delivering **28% and 18% opt-in rates, respectively** and contributing to **+25% Average Transaction Value**

P'ART

Freelance UX Designer | Jul 2020 – Jun 2021

Founded an independent design studio delivering UX, branding, and product projects for international clients, managing client relationships and end-to-end delivery.

The Design Bridge

UX Research & Design Manager | Sept 2018 – May 2020

Led UX research and design for a multi-sided building-materials marketplace, shipped the MVP in under **3 months, onboarding 55+ brands and 7,900+ users** across consumers, retailers, and architects.

Key Achievements

2nd Prize – AI Hackathon, STAGE OTT

Co-created MIRA, an AI-powered tool to optimise marketing creatives & data-driven targeting, enhancing campaign efficiency.

Top Performance Award

Top Performing Employee of the Year 2022-2023 at Adani Digital Labs for outstanding contributions to product design and team leadership.

Full Stack Builder

Built and shipped AI tools used company-wide at STAGE, including internal bots for design workflow and performance tracking, and a custom AI design skill that let any team member generate on-brand designs. Also use AI-assisted workflows (Claude Code, Cursor) to move faster from design to dev-ready handoff.

Technical Proficiency

Design & Tools: Figma, Adobe XD, Photoshop, Illustrator, Framer, InVision, Balsamiq, Protopie, HTML

Analytics & Experimentation Tools: Amplitude, Statsig, Snowflake

AI Tools: BMAD, Claude, ChatGPT, Midjourney, DALL·E, Figma Make, Lovable, V0, Replit, Pencil.dev

Collaboration Tools: ClickUp, Jira, Zeplin, Notion, Azure, Asana, Typeform, Slack, Confluence

Skills

Product & Design Skills: Product Thinking, Design Systems, Design Tokens, Interaction Design & Motion, Wireframing, Prototyping, Growth Conversion, Data-Informed Design

Research Skills: User Research, Usability Testing, A/B Testing, Card Sorting, Heuristic Evaluation, Accessibility, IA

Soft Skills: First Principle Thinking, Communication, Problem-Solving, Empathy, Analytical Thinking

Education

Bachelor of Architecture (B.Arch), Rajasthan University | August 2013 – April 2018

UI-UX Course, Kaarwan School of Design | February 2021 – April 2021
